

Below is a list of abbreviations that may appear on the following pages in the Requirement/Limits column that tells you if there are any special requirements for coverage of your drug.

List of Abbreviations

PA: Prior Authorization. The **Plan** requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

GC: Gap Coverage. We provide coverage of this prescription drug in the coverage gap. Please refer to our Evidence of Coverage for more information about this coverage.

LA: Limited Availability. This prescription may be available only at certain pharmacies. For more information, call Customer Service.

ED: Enhanced Drug. This prescription drug is not normally covered in a Medicare prescription drug plan. The amount you pay when you fill a prescription for this drug does not count toward your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for this drug.
